## CARLSON'S KOLORADO KWALITY

### "FULL OF PEP" BULBS

#### CARLSON DAHLIA GARDENS, BOULDER, COLORADO

America. (D) Shaded buff and pink. A good cut flower. ....25  
 ANNIE DOPPENBERG. (Hy) Holland dahlia. Sulphur yellow. Considered one of the best in Holland. Petals somewhat twisted. ....75  
 BEERCH van HEEMPSTEDE. (D) Holland dahlia. Light yellow of good form. Slight red suffusion on the reverse of petals in some cases. ....75  
 BETTWS. (Hy) An English dahlia that is about as large and fine as Cream King. Color, old gold, rose and amber. A grand dahlia. ....1.00  
 CREATION. (D) A Holland dahlia. No other dahlia of its color, which might be described as cherry red with golden bronze suffusion. A companion to King of Autumn as to cutting and keeping qualities. Has straight long stems carrying flowers above the plant. ....1.00  
 CORONA. (D) "The Carnation Dahlia." A small white dahlia that is very valuable for decorative and florist's work. Keeps and ships well. ....25  
 COLOSSAL PEACE. (Hy-C) A massive dahlia of the Kalif form and size. A beautiful soft light pink with lighter center. An early incessant bloomer and a very strong grower. Sometimes comes peony-cactus form and is fine either way. Stock scarce. Good divisions. ....3.50  
 CARMENCITA. (D) The best of the new Fancy-Decoratives. A California dahlia of very striking appearance. Color, yellow striped and shaded red. Of the greatest size and of uncommon and graceful form. ....1.50  
 Dr. H. H. Rusby. (P) Yellow blooms 6 to 8 inches across. Early and free. Light lemon color. ....35  
 DUFFRYN. (D) Pure white. Good bloomer and good size. The blossoms resemble a Camelia in form. ....35  
 GOLDEN PLOVER. (C) A medium size orange colored dahlia with somewhat lighter center. Pure orange colored dahlias are scarce. ....25  
 FRAULIEN BUDE. (P) Pink, shaded lighter. Good garden dahlia. ....40  
 GWENDOLYN TUCKER. (C) Incurved, silvery pink blooms. Large fine flower. ....65  
 GALATHEA. (C) Soft pink color, somewhat incurved. ....35  
 FIREBURST. (D) One of the largest orange-scarlet dahlias we grow. Blooms freely on long stems with 6 to 8 inch blooms. Fine for exhibition. Distinct in form and color. ....50  
 IMMENSE. (D) Very large white flowers entirely streaked and shaded crimson-lake. ....40  
 JOHANNESPERG. (C) One of the best. Petals very long, slim and straight. Free bloomer. Yellowish coppery shades. ....50  
 LA TONA. (P-D) Holland dahlia. Last summer La Tona withstood the wind and light frost better than any other dahlia. Color creamy-yellow with buff and amber shades. Very artistic, and fine for cutting and decorative work. Is a very fine keeper. Stems very long, stiff and straight. A free bloomer. ....1.00  
 GRAND LELAS. (P) To those who have grown "Glory of Nijkirk" will say that this is a mammoth, glorified Nijkirk. Deep violet color on long stems. A fine acquisition, indeed. ....\$3.00  
 MRS. T. A. MONROE. (C) A California novelty of a peculiar shade of amber with old-gold shadings. Pretty wavy petals. ....1.00  
 MRS. G. W. KERR. (P) A rich reddish plum shading to crimson as the blooms develop. Sometimes with lavender shaded tips. ....1.00  
 MONDSCHIEBE. (P) The largest lemon yellow peony dahlia we grew last year. Long stems like a cane. An early free bloomer. ....50  
 OLLIE ROBINSON. (P-D) Immense full blooms with petals long, numerous and curling backward toward the stems, making a very massive, full blossom. About the largest and finest of this type and color without a doubt. The color is a wonderfully fine, rare and glowing yellow shade. ....2.50  
 MONS le DuPONT. (Anemone-type) Petals red with brown pin-cushion center. ....50  
 PEMBROKE. (P) Carmine purple, with lighter shadings. Large flower. ....50  
 PERLE de LYON. (Hy-C) Pure white flowers of pretty formation. A row planted June 15 was one mass of white from about August to frost, nearly the first of November. ....35  
 PURPLE AIDA. (D) A purple sport of Aida (which see). Same size, form, etc. A favorite at the garden. ....75  
 PAUL BONYON. (D) A soft salmon with a beautiful, light luminous golden sheen in the center. A mass of blooms always. A dependable dahlia. ....50  
 PRINCESS MARY. (P-D) A new dahlia from Holland with a color about as fine as the famous Delice, but with larger blooms. Have the long stiff stems that we have come to look for in many of the newer dahlias. ....1.00  
 ROSA. (P) A very, very fine peony dahlia. A rare rose-pink color and of giant size and very full deep blooms. Not a cutflower dahlia but a great garden dahlia. ....75

RHEINISHER FLOHSIN. (C) An imported dahlia and I think one of the most entrancingly beautiful in our gardens. Petals creamy-white at the base changing quickly to a wonderful suffused luminous carmine. Stems are good and blooms profusely. ....75

SELMA. (P-D) One of the prettiest of the pink dahlias. Petals long and curve toward the stems, which are long. ....50

TERRA COTTA. (P) Full dahlia on good stems. Color terracotta. A good bloom of Terra Cotta is mighty fine. ....75

SENTA. (Hy-C) Pure white. At its best is about the form and size of Kalif, the famous crimson dahlia. ....75

TEMPTATION. (P) Cream pink shaded blush. Pretty dahlia. ....25

WEBER. (P) Striking shade of rose-pink on long stems. ....50

VATER RHIE. (Hy-C) Primrose yellow suffused with salmon-lilac and with a golden sheen. Sometimes comes a fine peony-cactus form. ....50

Washington City. (Hy-C) Of all the white dahlias this attracted the most attention on account of its huge, full star-like form and its pure glistening white color. Certainly a fine dahlia. ....2.50

YELLOW GIANT. (D) A Holland dahlia that is a standby with us. Produces large yellow flowers profusely on good stems. ....50

INSULINDE. (P) First class certificate in Holland, the highest award. Blooms 6 to 10 inches across and of the greatest depth. Wonderful orange and bronze shades. Stems unusually long and very straight and stiff. Created quite a sensation in our garden among our visitors. ....3.00

Hon. R. L. Borden. (P) Large rich golden bronze flowers. ....35

RUTH NICKOLS. (P) Imposing is the word for this dahlia. Gorgeous red color. Attracts instant attention. ....1.50

RENE CAYAEUX. Rich red. Very early. Medium size blooms. Our Rene Cayaeux was one blotch of red from about June 15th to frost, nearly November 1st. ....25

Tango Century. A beautiful century dahlia of similar colors to Geisha, yellow, crimson and gold. Long stems. ....50

RUTH GLEADELL. "The California Sunburst Dahlia." Soft yellow shaded to pink on the outer petals. Good stems, size and form. A free bloomer. ....1.00

MADONNA. (D-P) A large white, sometimes with slight near-pink shadings. A Holland dahlia of similar form to the well known Holland lavender-colored dahlia attraction. ....1.00

SEEDLING No. 40. (Hy-C) Our introduction. A medium size flower on long stems. Very distinct form and color, the latter an even shade of a rare rose pink. Petals curl and twist in an attractive manner. Appeals to discriminating buyers. Good divisions. ....3.00

Number 66. (P) A medium size scarlet dahlia with stems from 18 to 30 inches long making it one of the best for cutting. ....75

Number 27. (P) A dahlia much noticed on account of its rare color, which is almost a bluish shade. Flowers are large on good stems. ....1.50

Dahlia Imperialis. (Mexican Tree Dahlia). See catalog.

We use no artificial stimulants in growing our dahlias which force the plant at the expense of the tuber. In our climate, with irrigation, plants are never stunted by drought, or by excessive rain or heat. "They are Full of Pep."

Should you want any varieties not listed in our catalog it is probable that we can furnish it because we grow many varieties in our gardens in quantities too small to list. Also, one reason you may not find some of your old favorites listed is because we have found in our trials something that is much better in some respect.

It is a good idea to select second choice, in case the first choice is sold out.

Cash orders are sent prepaid in the U. S. A.  
 Send for list of peonys, roses and glads.

PROGRESSIVE EVERBEARING STRAWBERRIES 50c per doz.;  
 \$2.50 per 100; \$20 per 1,000.
